Re: **Complainants against UN Women in South Africa**

Dear Ms. Phumzile Mlambo- Ngcuka

Allegations of discrimination, maladministration, and gross human rights violations have been leveled against the UN Women office in South Africa. We view such in a serious light and thus request an urgent meeting between ourselves and your office, to address and attend to these allegations and find a resolution for the benefit of all parties involved and affected.

Hope to hear from you soon.
